

Creative Writing – Poem? Flash fiction?
Devotional? Novel? Make your writing
dreams come true!

This one-semester course will cover a range of genres and styles in a writer's workshop format in order to compile an individual portfolio. Professional excerpts, author study, and peer revision will inform the writing process. Students will be encouraged to enter contests, submit work for publication, and produce an anthology of the class's best writing. Work can be completed within the class period.
