

Theater terminology and fundamentals of stage design, set and property construction, costumes, make-up, promotions, and the principles of stage lighting and sound will be presented through this course. Each student will attend the after-school play rehearsals and serve on production crews during the performances. Students will learn all responsibilities of a production and be given the opportunity to creatively express their vision for each play performed. Throughout this course, students will have the opportunity to practice their production skills through group projects designed to broaden their behind-the-scenes abilities.
