

Instructor: Mrs. Jennifer Ohsfeldt  
This is a one-semester course that includes an in-depth study of three-dimensional art topics, using a variety of media and artistic styles. This course will cover the problems and techniques of applied three-dimensional design with an emphasis on the use of materials and tools. Topics such as clay, paper, wood, metal, etc. will be included. This course is open for students in grades 10th - 12th.
